

The purpose of this memo is to acquaint our customers with the procedures which will be in effect for all breeders utilizing HELPISONTHEWAY during the upcoming breeding season.

Breeding Days

The breeding season will begin February 15th and will continue through July 4th, with collection days on Monday, Wednesday, Friday, and Saturday; semen may also be available on Tuesday & Thursdays.

1. Breeding one time per heat cycle is always preferred; mares will be bred two times per heat cycle.
2. Our ability to service mares for the third time on the same heat cycle will be determined by how many other mares are booked HELPISONTHEWAY on that day.
3. Mares being bred for the first or second time have preference over those being bred for a third.
4. Mares that were bred on Friday will be placed last on the list for Saturday semen orders.

Breeders can call, fax or text before 3 PM (EST) the day before collection or by 9 AM on collection days.

If calling, faxes or texts after hours, the mare will be on the breed list unless you call to cancel by 7 AM.

Mares to be bred on Saturday, must be called, or texted before 3:00 PM on Friday to be placed on Saturday's breed list; we will not call back to confirm your mare is on the list.

Semen order call in times will be STRICTLY enforced and are non-negotiable.
